

## Jeremy C. Biesanz

[CV](#) [R<sup>e</sup>](#) [✿](#) [g](#) [ID](#) [GitHub](#) [socialaccuracy.com](#) [email](#)

RESEARCH INTERESTS	Interpersonal perception, accuracy, personality, quantitative methods, confidence intervals, sample size planning, improving open science practices	
PROFESSIONAL HISTORY	Associate Professor Department of Psychology, University of British Columbia	2012–present
	Assistant Professor Department of Psychology, University of British Columbia	2004–2012
	Assistant Professor Department of Psychology, University of Wisconsin–Madison	2001–2004
	Postdoctoral Fellow Center for Developmental Science, UNC–Chapel Hill	1999–2001
EDUCATION	Ph.D. Arizona State University, Department of Psychology	1999
	M.A. Arizona State University, Department of Psychology	1996
	A.B. Cornell University, College of Arts & Sciences	1991
TEACHING	Psyc 218: Analysis of Behavioural Data Psyc 359: Advanced Research Methods in Behavioural Sciences Psyc 545A: Advanced Statistics I Psyc 546B: Analysis of Variance Psyc 546E: Applied Multiple Regression Psyc 546J: Applied Multilevel Modeling Psyc 546Y: Structural Equation Modeling Psyc 569: Contemporary Conceptual Issues in Personality Psyc 591: Survey of Social Psychology II	
AWARDS	Mind Gym Academic Prize (2 <sup>nd</sup> place)	2007
	Raymond B. Cattell Early Career Award (SMEP)	2006
	J. S. Tanaka Personality Dissertation Award (ARP)	2000
	SMEP Dissertation Support Award	1999
	Phelps Dodge Graduate Scholarship (ASU)	1998
	Phi Beta Kappa, Cornell University	1991
STATISTICS	<a href="#">Google Scholar</a> : $h$ -index = 41 with 6519 total citations as of June 2022

Annual meeting of the Society for Personality and Social Psychology. New Orleans, LA, United States, 2020, February, February

4. Biesanz, J. C. *Introduction to multilevel modeling* [Invited workshop]. In: APS Methodology Workshop, Washington, D.C., 2019, July, July. <https://doi.org/10.17605/OSF.IO/82YRB>
5. Mignault, M.-C., Heyman, J., Biesanz, J. C., & Human, L. J. *On being and feeling understood: Examining the roles of transparency and transparency beliefs in well-being* [Poster presentation]. In: Biannual meeting of the Association for Research in Personality. Grand Rapids, MI, United States, 2019, June, June
6. Can, P., & Biesanz, J. C. *Similarity of trait questions Matter: Simplifying response surface analysis using difference and average scores* [Poster presentation]. In: Biannual meeting of the Association for Research in Personality. Grand Rapids, MI, United States, 2019, June, June
7. Stewart, J., & Biesanz, J. C. *Examining the consistency of the good target across contexts and domains of personality* [Poster presentation]. In: Biannual meeting of the Association for Research in Personality. Grand Rapids, MI, United States, 2019, June, June
8. Biesanz, J. C. *What have we learned from new analytical models of interpersonal perception?* [Invited colloquium]. In: University of British Columbia, Vancouver, BC, Canada, 2017, March, March
9. Biesanz, J. C. *Levels of analysis, components, and implications for personality* [Invited symposium]. In: American Psychological Society. Boston, MA, 2017, May, May
10. Biesanz, J. C. *Expected statistical power: Justifying and evaluating statistical power.* [Invited presentation]. In: Society for the Improvement of Psychological Science. Charlottesville, NC, United States, 2017, July
11. Biesanz, J. C. *Introduction to the profile-based approach and Social Accuracy Model analyses* [Invited series of talks at the *Judgment Accuracy: Basics and Applications* workshop]. In: Department of Psychology, University of Münster. Münster, Germany, 2016, January, January

EDITORIAL	Associate Editor, <i>Personality and Social Psychology Bulletin</i>	2013–2016
APPOINTMENTS	Associate Editor, <i>Collabra</i>	2015–2019
	Ad Hoc Editor, <i>SAGE Open</i>	2015–2016
	Ad Hoc Editor, <i>Journal of Research in Personality</i>	2010
REVIEWING	<i>American Psychologist</i>	
	<i>Basic and Applied Social Psychology</i>	
	<i>Canadian Journal of Behavioural Science</i>	
	<i>Child Development</i>	
	<i>Current Directions in Psychological Science</i>

RESEARCH GRANTS	Social Sciences and Humanities Research Council (\$96,500, PI) <i>Towards understanding the good target.</i>	2020–2023
	Social Sciences and Humanities Research Council (\$163,716, co-PI) <i>Hello stranger: Intrapersonal and interpersonal strategies for promoting interactions between strangers.</i>	2018–2023
	National Science Foundation (\$406,358, co-PI) <i>Testing the state and trait accuracy model: Links between accuracy of judging affect and accuracy of judging traits.</i>	2016–2018
	Social Sciences and Humanities Research Council (\$193,425, PI) <i>Assessing the good target: Examining the characteristics and consequences of being accurately perceived.</i>	2014–2018
	University of British Columbia (\$5500, PI) <i>Face-to-face with everyday villains: Individual differences in the formation of accurate first impressions among people with dark personalities.</i>	2014–2015

Social Sciences and Humanities Research Council (\$33,250, co-PI)	2014–2018
<i>The structure and nature of informant reports of personality.</i>	
Social Sciences and Humanities Research Council (\$89,520, PI)	2011–2013
<i>Assessing the good target: Examining the personality of and the process through which some individuals are more accurately perceived by others.</i>	
Social Sciences and Humanities Research Council (\$136,101, PI)	2008–2011
<i>Assessing accuracy in interpersonal judgments: Determining the good judge and the good target.</i>	
Social Sciences and Humanities Research Council (\$147,500, PI)	2005–2007
<i>Development of personality agreement across time.</i>	

OTHER WORKS     *fabs*: Functions for Applied Behavioural Sciences in R. ([github.com/jbiesanz/fabs](https://github.com/jbiesanz/fabs))

I am solely responsible for creating and maintaining *fabs* which is a general purpose open-source toolbox package in R that consists of a set of useful and varied functions for applied analyses in the behavioural sciences. Confidence intervals for standardized effect size estimates, for both fixed and random predictors, are generated using randomly constructed distributions and optimized through stochastic approximation. Sample size planning incorporates the uncertainty associated with effect size estimates and provides both quantiles for power as well as expected confidence interval width. Functions for resampling regression models are provided for both casewise resampling as well as the wild bootstrap. All regression resampling functions incorporate missing data functionality through multiple imputation. A series of robust regression techniques are automated in this package as well.
